

WANT JONES TO GO
FOR ANOTHER MANREPUBLICANS REQUEST THE
SENATOR TO RESIGN.

He is Openly Denounced For Desertion of the Party and a Letter Is Sent to the State Central Committee Arraigning the Statesman For His Defection.

CARSON CITY, Nev., Sept. 18.—Senator John P. Jones of Nevada has been requested by the republican state central committee to resign his seat in the United States senate, to which he was elected by republicans. This request is made in a long letter which was drafted by Chairman Trenor Coffin and approved by the state central committee at a meeting held in this city. The letter exhaustively reviews Senator Jones' letter of Aug. 29 to the former chairman of the committee, Enoch Strother, in which Jones announces that he has left the republican party to join the populists, and severely criticizes his course of action. The main points of the letter are as follows:

You say that you have not changed your principles. Well and good. Then it follows that you have merely changed your name, and instead of calling yourself a republican you will hereafter term yourself a populist. Do the shining examples of populist influence (conspicuous among others that of your own colleague) with which you are daily and hourly confronted in the senate justify the belief that such a change will add to your prestige and power as a member of that body? Do not the cases of Sumner and Schurz and Trumbull and many others furnish the most painful reminders that the day upon which a brilliant and distinguished party leader breaks away from the organization in which he has won all his fame marks the beginning of his political decline? Can you reasonably expect a different result?

But by what mental processes you arrive at the conclusion that the great "principle" involved requires you to part with the republican party of Nevada, your letter entirely fails to disclose. You concede that we are true to the cause of silver. Then why do you abandon us? If we are true to silver, why does not devotion to that "principle" of which you write so eloquently require you to remain true to us? Not only have we been true to the cause of silver, but we have been true to every other great principle that you hold dear; and more than all, we have been fidelity itself to you. Then, we ask again, why have you abandoned us? The silver party does not accept your name, while the populist party does not accept your creed, so that upon every recognized political principle you are literally left without a party in the state of Nevada.

The publication of your letter has not caused even a waver in their ranks, and no defection of any leader, however great and distinguished, will cause them to swerve a hair's breadth from what they believe to be their duty. In conclusion we desire to remind you that you were elected to the United States senate as a republican, by the republican party. In the strictest sense the office is a political one, and the republican party is entitled to representation for the full term of six years from the 4th of March, 1891. As you now announce that you can no longer act with the party that elected you, every consideration of propriety and delicacy requires you to resign.

In the name of the republican party of Nevada we respectfully request you to do so.

HE CLAIMS THE HONOR.

Breckinridge Sure the Ashland Democrats Nominated Him.

LEXINGTON, Ky., Sept. 18.—Col. Breckinridge issued a statement last night regarding the situation in the Ashland district. He claims the official count will give him the nomination. Mr. Owens was asked to make a statement, but he would only say that he would stand by the statement of the people made last Saturday.

CINCINNATI, Ohio, Sept. 18.—Corrected and official returns from the eight counties of the Ashland district show a plurality of 310 for Owens over Breckinridge.

Senator Jones Talks.

NEW YORK, Sept. 18.—Speaking about the report that he had been requested to resign his senatorial office by the Republican State Central committee of Nevada, Senator John P. Jones said: "I have not as yet received a letter from the committee and consequently can say nothing in regard to it. When the letter reaches me, which will be in four or five days, if such a letter has really been written, then it will be time for me to reply. And as the Republican State Central committee has given its letter to the papers I presume my answer will have the same publicity."

MORTON HAS NO CINCH.

Five Candidates for Governor Before the New York Convention.

SARATOGA, N. Y., Sept. 18.—A night's rest and the vivifying influence of the bands that arrived with the various delegations seemed to put heart into the many small candidates yesterday. The result is that where Sunday night there were but two candidates for governor, there are now five candidates for governor, thirteen for lieutenant governor and four for judge of the court of appeals. The latest announcements in the race for lieutenant governor are ex-Senator Francis Hendrich, of Syracuse and Hamilton Fish, of Putnam. For governor the candidates are Morton, Fassett, Woodford, Butterfield and Russell. The Morton adherents still claim that their candidate will be nominated on the first ballot, but the bitter fight for lieutenant governorship, it is thought, may result in a free-for-all fight for governor. The Fassett people are accordingly claiming that the contest will greatly aid them.

FOR A PASSAGE TO THE SEA.

Deep Waterways Convention Discusses an Important Question.

TORONTO, Ont., Sept. 18.—"That it is the sense of this convention that the improvement of the navigation of the St. Lawrence river is imperatively demanded in the interests of the United States and Canada and that a depth of water not less than twenty-one feet by canals or channels around or through its shallows should be secured at the joint expense of the two nations conditional upon its navigation being made commercially free." This is a resolution introduced last evening by the Hon. W. Seymour of Sault Ste. Marie at a meeting of the committee on resolutions appointed by the convention on deep waterways. It was the only practical action taken by the delegates at the convention which met to consider the best means to take for the purpose of cheapening transportation from Chicago and other western points to the seaboard. Mr. Seymour was asked to elaborate his resolution and hand it to the secretary, which he will do to-day.

CHINESE DEAD LIST
STILL GROWING

FULLY 17,000 WERE KILLED IN SATURDAY'S FIGHT.

Cavalry Bringing in Prisoners All the Time and Sending Them to Japan—Further Particulars of the Bloodiest Engagement of the War—Officers Captured.

PING YUNG, Corea, Sept. 17.—Fully 17,000 Chinese were killed in Saturday's battle with the list still growing. Cavalry are bringing in the prisoners who are sent to Japan. The battle was a well planned one the Japanese drawing the fire of the Chinese forts and ascertaining accurately their disposition. This done the Japanese fell back in good order, with little loss. Friday night, the dispatch adds, all the Japanese forces were in position for a combined attack. The Gen San column was threatening the Chinese left flank. The Pong San column was facing the Chinese center and the Hwang Zu column was operating on the Chinese right. The latter column had been reinforced the day before by a detachment of marines and blue-jackets from the fleet stationed at the mouth of the Ta-Tong river.

The Chinese utilized their old defenses at Ping Yang and had thrown up new works, with the result that their position was exceptionally strong.

The battle opened Saturday morning at daybreak with a direct cannonade upon the Chinese works, and this fire was continued without cessation until after noon. The Chinese fought their guns well, replying effectively to the Japanese.

At 2 o'clock p. m. a body of Japanese infantry was thrown forward in skirmish order and kept up a rifle fire upon the enemy until dusk. All the fighting during the day was done by Pong San column. The Chinese defenses suffered exceedingly from the Japanese fire, but it is doubtful if the losses on either side were great, as the troops, both Chinese and Japanese took every advantage possible of the shelter which the earthworks on one side, and the nature of the ground on the other, afforded them.

The flank attacks upon the Chinese post did not develop any material advantage during the day, although the Japanese gained some in the position. But they mainly occupied the same ground at night as when the attack upon the enemy was opened.

The firing was continued at intervals throughout the night. In the meantime the two flanking columns of Japanese drew a cordon around the Chinese troops and at 3 o'clock in the morning the Japanese attack was delivered simultaneously and with admirable precision. The Chinese lines, which were strong in front, were found to be weak in the rear and the Chinese, utterly unsuspecting of the Japanese attack from that quarter, were taken completely by surprise, became panic-stricken and were cut down and bayoneted by the hundreds.

So well was the Japanese attack directed that the Chinese were surrounded at every point and eventually sought safety in flight. Defending the entrenchment, however, were some of Viceroy Li Hung Chang's picked Chinese troops, drilled by Europeans. These soldiers made a determined stand to the last and were cut down to a man.

The Pong San column, swarming over the damaged defenses of the Chinese front, completed the route of the Chinese and the whole of the latter's position was captured by the troops of the Mikado. It is believed the Chinese suffered 16,000 killed, wounded or taken prisoners. Among the latter are several of the most prominent officers of the Chinese army.

WASHINGTON, Sept. 18.—A telegram has been received at the Japanese legation announcing that a general engagement between the Japanese and Chinese forces took place at Ping Yang, near the northern frontier of Corea, Sept. 15, and resulted in a decisive victory for the Japanese.

TORNADO OF DEATH
SWEEPS A STATE

WINDS BLOW STRONG DOWN IN OKLAHOMA.

Hamlets Wiped Off the Map While Fire Follows the Gale and the Wreck is Complete—Three Persons Dead and Many Injured—Fatal Fire in Washington.

PERRY, Okla., Sept. 18.—A tornado passed through the towns of Jennings and Mining yesterday and left them in ruins. The storm came from the southwest and dropped upon the villages before any one could seek cyclone cellars. Fifty homes were demolished in the two places and it is known three persons, a young woman and two children, are dead and several persons injured. The wreck was universal. The injured were exposed to the elements and did not receive medical attention for several hours or until rescuers from adjoining towns arrived. In the town of Mining the overturned stoves set fire to the ruins and the place was entirely swept over. Farmers from the surrounding country flocked in and did all in their power to save property and care for those hurt. The injured are cut and bruised, and some have internal injuries can not recover. The storm cut down all the wires and leaves no source of information except the first reports of couriers. It is thought the sweep of the storm has caused much damage through the entire district about the ill-fated towns. Mining is a small town of sixty houses in the Osage Indian country in Jennings district and has about 300 inhabitants. It is forty miles from the nearest railroad.

DISASTROUS FIRE IN OKLAHOMA.

NORTA ENID, Okla., Sept. 18.—Incendiaries destroyed last night almost all that has been accomplished in this town in the last year, and what was the most substantial part of North Enid is a black, charred mass of ruins. At 2 o'clock the Columbia drug store and Kirk & Co's big grain establishment were found ablaze. A heavy wind was blowing from the northwest, and the city having no fire apparatus people were helpless. The sudden shifting of the wind saved the city from destruction. Before the flames were under control, however, the magnificent Arlington hotel, just completed by Wm. Callahan, the railroad contractor, at a cost of \$20,000, was a total loss, and the two score guests in it barely escaped with their lives. Nine buildings were destroyed. There was practically no insurance. The fire is a terrible blow to the town, and unless the railroad does something to encourage the people it will be impossible to keep them here.

It has secured 300 non-union miners in the West Virginia coal fields to place two mines in the Massillon district. A strong body of guards has been secured to protect the men when they arrive. The miners are ready, and a telegram will assemble the guards within a short time. In fact, everything is in readiness and only needs the confirmation of the operators to let the scheme loose. Young Man Who Was Shot in a Melon Patch is Recovering.

COOKSVILLE, Sept. 18.—Charles McCarthy, the young man who was shot last week is recovering, and if no new features develop in the case, he will be all right. Mr. Keeley has been over twice to settle the matter, and both parties are very sorry it happened. Ward Pierce, Wessington, South Dakota, is visiting his mother and friends. They came all the way, six hundred miles, in a buggy, and are on their way to New York state. They expect to be on the road six weeks longer. The harmless sweet cider is making topic for remarks and if there is not a stop put to giving it away there will be trouble ahead. It is a downright shame to give cider that will intoxicate to boys or men. G. E. Newman, E. M. Stebbins and William Tolles were delegates to the republican convention last Tuesday. Miss Kate Miller is in Madison. Mr. and Mrs. C. S. Preston went to Magnolia to visit friends, and attend service there Sunday. The delegates were elected last Saturday night to go to the sixth district lodge of I. O. G. T., which convenes at Beloit the 19 and 20. Mrs. Newman was called to Chicago last week, to the bedside of a sick sister. Mrs. Fitzgerald returned last Sunday from Stoughton, after a two weeks visit with friends there. Jack Robertson has a new blacksmith shop, all complete, built this last week, and Jack is ready now for all kinds of work in his line. Mrs. Rice entertained a couple of nieces from Chicago a part of last week. Mrs. Rob Steel is staying with her sister, Mrs. Newkirk for a few days.

LIMA NEWS AND COMMENT.

The United Brethren Church Much Improved—Gilson Family Settled.

LIMA, Sept. 18.—Mr. Gilson and family, of Emerald Grove, moved here last Wednesday, he having bought the interest in the wagon shop formerly run by Ora Thurman. The United Brethren church is being treated to a coat of paint; also resingled and papered, which will add very much to its looks, as all of these improvements were very much needed. Mrs. Hiram Jones is visiting Whitewater friends. Bennie Oviatt and Miss Cora Drane, of Rutland, drove out to Lima Saturday and visited with Miss Carrie and Allie Johnson, returning home on Sunday. Miss Mae Charles has gone to Afton to visit her brother George. George Ellis, wife and two children and Harley Barker of Millard visited at George Fuller's Saturday and Sunday. Miss Ella Barker goes Monday over to Will Thompson's to sew for Mrs. Thompson. Mrs. W. Frank Anderson went home last week. Miss Florence Anderson is to spend a week visiting friends at Turtle Lake. Rev. A. D. Sanborn and wife of Oakfield, visited at the home of Carrie and Alice Johnson last Monday.

COWS KILLED IN JOHNSTOWN.

Lightning Picked Out Two of Eugene Cary's Herd—Personal Mention.

NORTH JOHNSTOWN, Sept. 18.—During the storm last Friday night lightning killed two cows of Eugene Cary's. They were insured in the town company. Mrs. James Harris is on the sick list, also Mrs. E. C. Cary. Mrs. Dobell, who has been visiting her sister, Mrs. Harris, returned to White-water last Thursday. From there she will go to her home in Iowa. E. C. Abbott and wife called on Lima friends last Sunday. Clark Harris and family visited Fort Atkinson friends last week.

WM. BOOS RESTING COMFORTABLY

The Horse That Hurt Him Has Been Put On a Flow.

William Boos, who was so severely hurt yesterday by being trampled on by a horse is resting quite comfortably today. The horse that was responsible for his condition is now rusticated on a farm. Mr. Boos' brother-in-law John W. Hogan having taken the animal out to pasture yesterday. The horse was not really a vicious one but had done little work for a week past and was "feeling his oats." The long cut that Mr. Boos received on his face had to be sewed up from one end to the other and will probably leave a bad scar.

HILL TO BE PAVED BEFORE NOVEMBER

EAST MILWAUKEE STREET IMPROVEMENT ORDERED.

Protest From J. H. Myers Not Heeded—He Claimed That the Property of the Estate Would be Confiscated for Taxes—Odd Fellows Allowed to Build a Sewer.

November 1, will see East Milwaukee street from the east line of Main street to the east line of Division street paved with cedar blocks. Mayor Thoroughgood presided over the special council meeting last night. The committee appointed to examine the condition of the street, reported unanimously in favor of paving. Before proceeding with the business, the mayor stated that J. H. Myers was present and desired to be heard. Mr. Myers said he had seen two-thirds of the property owners on the street, and they were opposed to paving the street this year. The street was in bad condition, but it could be repaired by putting in rubble which would do for a year, when he would be in favor of paving. The Myers estate owned half the frontage to be paved, and had just paved South Main street at considerable cost, and it was in his opinion asking too much to force this work this year. He said the street had stood for fifty years in its present condition, and thought another year with the usual repairs, would not inconvenience anybody. Parties were agitating the paving of North Main street on which the Myers owned a large frontage, and it looked as if the estate would be confiscated for improvements. He insisted that he was in favor of public improvements, but thought it better policy to pave a few blocks each year, so the burden of expense would be lighter.

Vote Was Unanimous For Paving.

A vote was taken and was unanimously in favor of paving. Alderman Rich presented an order directing the city engineer to prepare plans and specifications for paving East Milwaukee street, from Main to Division street, with cedar blocks.

A ten-minute recess was taken, when Engineer Bleedorn filed his plans and specifications, which were referred to the highway, street and bridge committee. The committee held a brief consultation, after which the specifications were reported back with a recommendation that they be adopted, which was concurred in. The plans and specifications were then placed on file.

The clerk was then directed to advertise for bids for paving the street, the bids to be received until September 26, the pavement to be completed by November 1. The paving contract provides that all labor must be done by Janesville laborers.

The Odd Fellows were given permission to construct a sewer across North Main street, under usual regulations.

REV. MR. REQUA WILL NOT RETURN

Change Will Be Made In the Pulpit of Court Street Church.

At the quarterly conference of Court Street M. E. church last evening, the pastor, Rev. W. F. Requa, expressed a desire to take up work elsewhere, and his pastorate will doubtless close at Court Street next Sunday. The many friends of Mr. Requa will regret his departure. He is recognized as a christian gentleman and a good preacher. That he will be assigned to a good appointment for another year is not a matter of doubt. Who will be his successor at Court Street is an open question, but Dr. Halsey, of Milwaukee, is generally spoken of as a probability.

MY FOOD DOES ME NO GOOD.

Oh, If I Could Only Eat.

Why Are These Questions Asked By So Many People?

A Piece of News For Those Who Have Weak Stomachs.

The stomach, liver and bowels cause more trouble than any other part of the body. There are thousands of persons whose food don't do them the good it should. They have bad taste in the mouth, coated tongue, constipation, gas in stomach, fullness or distress after meals, bloating or belching of wind. They often have headache, are weak and nervous, have sallow complexions and can't sleep. Frank Pierce, Esq., a well-known man of Goffstown, N. H., says:

"Some ten years ago, I was taken with inflammation of the stomach. I was in so much distress that the doctor gave me morphine and used something he put in my arm. After the pain stopped my little finger began to swell and pain me. It extended all over my hand which was terribly swollen.

"I could not use it at all and it continued so for weeks. My stomach and bowels were in a fearful condition. I had to take physic constantly. My hands and feet swelled so I could not walk and could hardly feed myself. The doctors pronounced it rheumatism.

"That followed me for years and last fall I had a slight shock which weakened me very much.

MR. FRANK PIERCE.

Then the grippe set in and I was unable to do anything all winter. When warm weather came I got some better but was unable to walk the shortest distance without being so tired I would have to sit down.

"I tried doctors and medicines but received no benefit from them. Then I began to use Dr. Greene's Nervura blood and nerve remedy and before I had taken one bottle I felt better and continued to steadily gain under the use of this wonderful medicine.

"I have been in better health this winter than for the last ten years. Have not had an attack of rheumatism since and my stomach and digestion are all right. I do not take cold as I used to and have worked every day for the last two months without the least trouble and without that tired feeling I have had so long.

"I advise everyone to use Dr. Greene's Nervura blood and nerve remedy. It is a wonderful medicine. It cured me and it will cure you, sufferer. There is no other remedy in the world that will compare with it."

You who have suffered so long and tried so many remedies, just try a bottle of Dr. Greene's Nervura blood and nerve remedy and you will get well. It always cures. Doctors recommend it because it is a great physician's discovery and because it makes people well. Dr. Greene is the most successful specialist in curing nervous and chronic diseases. His office is at 35 West 14th Street, New York, where he can be consulted free, personally or by letter.

WEST MILWAUKEE STREET TORN UP

Men Begin Laying the Block Pavement This Morning.

When the whistle blew this morning, a brawny son of the Emerald Isle s'ruck a pick into the earth on West Milwaukee street, and the paving of that street from the Grand Hotel to Academy street, went on. M. H. Curtis has the contract. This has long been one of the roughest and muddiest streets in town, and everyone who has to ride over it will be glad to see it fixed up. The Street Railway Company are also at work, and will pave between the track instead of planking it, and will lay stringers instead of ties. The change also makes some alterations in the gas pipes necessary, and Superintendent Wortendyke has men at work at that.

J. H. GATELEY HURT IN A PAINFUL WAY

THROWN FROM HIS CART TO THE PAVEMENT.

Runaway Collided With His Rig This Morning Pitching Him Headlong Into the Street, But His Injuries While Severe, Not of a Dangerous Nature.

J. H. Gateley was pitched headlong from his cart at Stearns & Baker's drug store corner this morning, landing on his hands and face on the pavement. The injuries that he received, while painful and extensive, will not, it is thought, result in any dangerous complication, as they are mostly cuts and bruises. He also complained of an injury to his chest that may yet result in something more serious than is now thought for. Mr. Gateley was driving down West Milwaukee street when a runaway horse came down Franklin street. Before Mr. Gateley could pull up or turn to one side, the runaway had lunged against the cart, tipping it over. Mr. Gateley was thrown some distance and landed on his head, chest and hands, while the cart was turned on its side with one wheel minus several spokes.

His Horse Ran Away, Too.

While Mr. Gateley was being assisted to his feet his horse ran down Milwaukee street, vainly trying to kick himself free from the overturned cart; but at Franklin street Officer Hogan caught him. The other horse turned west and ran up Milwaukee street to Center avenue, and then headed for Beloit.

Mr. Gateley was taken to Stearns & Baker's drugstore and Dr. C. L. Clark dressed his injuries. He had an ugly gash on the side of his head and in addition a considerable cuticle had been scraped off by his slide on the pavement. Both hands were also more or less skinned, and the fingers sprained, but no bones were broken. It was a lucky accident as it was.

Young Russian Applies to Judge Bennett for Naturalization Papers.

Adolph Dalsar is a Russian, who came to this country when sixteen years old. He made his home in Watertown, and today he appeared before Judge Bennett with a petition asking to be made a citizen of the United States, which was granted.

"I am now twenty-one years old," said he to the judge. "I intend to start back to Russia tomorrow to visit my old home near the German frontier. During November the Russian officials go through the country picking up all the able bodied young men for service in the army, and some who refuse to serve are transported to Siberia as political prisoners. I claim the United States as my country and want papers to prove that fact to the Russian officials."

Ames' Vic A. was also named as a starter in the colt pacing class.

HENRIETTA CLOTH

Will Not Wear Out and Is Handsome and Stylish.

A good quality of henrietta cloth is by far the most durable, reliable and satisfactory of all materials. There is practically no wear out to it, and it is always handsome and stylish. With a little trimming of good mohair braid, this makes a dress that has more uses and gives better satisfaction than anything in the market. There is another advantage in this fabric which is a great point in its favor. It can always be matched, and even though there are but two breadths left these two can be put with new without quarreling.

In old times it was the custom for a woman to buy a good black silk at stated intervals. When the new one was made, the last one was taken for second best, and whatever remained of older ones made an afternoon dress or something that would combine with or trim goods of another

MOURNING COSTUME.

sort, and the same may be done with a henrietta, only on an even more extensive scale.

There is nothing in the whole catalogue of fabrics that makes such an admirable stormy day dress as a high grade silk warp henrietta. The last stage of a good material may be used in this way and lined with some fabric that will not shrink, faced with goods that has seen service and will pucker in around the foot like a drawstring. Finished with a black silk dust ruffle, this makes a skirt that one may go out in in all weathers and come home with the assurance of not looking like a fright. Cheap goods are worthless for rough weather, and any woman who owns a good henrietta and a fine, close woven storm serge is equipped for a battle with the elements, no matter what their fury may be.

The sketch shows a mourning gown of black henrietta trimmed with crape. The collar and tight part of the sleeves are of crape, and four crape covered buttons trim the figaro jacket, while lengthwise bands of crape mark the plaits of the skirt.

PARISIAN NOTES.

Suggestions About Gloves and Concerning the Toilet.

Parisian women are the best gloved in the world, but most of them wear 6½ or 6¾ gloves. These are not the smallest sizes for a pretty hand, but are those worn by many of the fairest of the sex nevertheless, for a tight glove is a perfect abomination. It makes the hand look larger instead of smaller.

When tired, warm and weary after a day's outing, do not plunge the face in cold water, expecting to be refreshed, or you will be more than disappointed. After the first cooling contact with the water the flesh will smart and burn more uncomfortably than ever. Instead of soothing the overheated skin, cold water acts as an irritant, whereas tepid or hot water produces a contrary and desirable effect. After removing the dust and cleansing the pores thoroughly a buttermilk rub will

heal, whiten and keep the skin tissues in a healthy condition. The sun glaring on hot brick and mortar and hot dusty pavements is very hard on the eyes. Bathing the eyes in tepid rainwater and epsom salts or diluted extract of witch hazel will allay inflammation and rest them wonderfully.

The Marie Antoinette fichu is very popular in Paris, especially with taffeta gowns. It ties at the back, with long ends falling on the skirt, and is made either of net and edged with lace or of glace silk and trimmed with ruffles.

A new sleeve is shown in the cut. The lower part is of guipure, the puff of accordion plaited goods. A guipure cap is placed over the puff, and that again is surmounted by a box plaited epaulet lined with silk.

A Good Laundry Bag.

Striped awning cloth makes a good strong laundry bag. If it is to be much in evidence, make it square and put a ruffle around it. Let the flap be nearly half as deep as the bag and pointed, fastening with a big pearl button, and ruffled. Across the back of the bag, at the top, sew a band of the goods, and to this put four loops to hang it up by.

A VETERAN'S VERDICT.

The War is Over. A Well-known Soldier, Correspondent and Journalist Makes a Disclosure.

Indiana contributed her thousands of brave soldiers to the war, and no state bears a better record in that respect than it does. In literature it is rapidly acquiring an enviable place. In war and literature Solomon Yewell, well known as a writer as "Sol," has won an honorable position. During the late war he was a member of Co. M, 2d N. Y. Cavalry and of the 13th Indiana Infantry Volunteers. Regarding an important circumstance he writes as follows: "Several of us old veterans here are using Dr. Miles' Restorative Nervine, Heart Cure and Nerve and Liver Pills, all of them giving splendid satisfaction. In fact, we have never used remedies that compare with them. Of the Pills we must say they are the best combination of the qualities required in a preparation of their nature we have ever known. We have none but words of praise for them. They are the outgrowth of a new principle in medicine, and tone up the system wonderfully. We say to all, try these remedies. These remedies are sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles \$5, express prepaid. D. F. Bassett, who is running for sheriff on the prohibition ticket agrees to board tramps for \$1,350. That settles Hogan, of course. The democrats have declared that the only issue is who will run the office the cheapest and they must all vote for Bassett in order to be half way consistent.

Delaware's majority for Cleveland in 1892 was only about 500, and Minister Bayard, will be home in October to look after the new legislature which will have a United States senator to elect. Delaware republicans think they can carry the state this year by at least 1200.

A Philadelphia democratic paper warns republicans that they may have to confront a condition of prosperity in 1896, and that big majorities will then be scarce. No fear of that. Voters will hardly lose their heads with returning prosperity and proceed to throw it away again.

The number of Pennsylvania democrats who are pledging themselves to vote republican tickets this fall leads to the suggestion that Pennsylvania might as well direct the secretary to cast the vote of the state for the republican nominees.

If Hogan is to be preferred to Appleby because he will board tramps for \$1,500, Bassett should be still more in favor. He will take the job for \$1,350. The bid of the populist candidate has not yet been received.

The democratic speeches this year are curious examples of inconsistency and self-contradiction, but they could not possibly be any worse in that respect than the record of the party that they are intended to serve.

The Kansas republicans are making a vigorous campaign, with the draft of public sentiment on their side, and it is hardly to be doubted that Populism will be squelched in that state this year.

Party managers who endorsed the sale of a foreign mission to Van Alen for \$50,000, try to palm off the corrupt bargain for a senatorial nomination in Illinois as a "demand from the people."

The narrow margin by which a creature like Breckinridge was prevented from returning to congress, puzzles people until they remember that only democrats voted on the question.

Have you noticed that the men who had most to do with the framing of the "perfidy and dishonor" tariff law are having least to do with the task of defending it before the people?

The prohibitionist vote in Maine has gone down from the usual 10,000

to about 3,000. Maine folks evidently realize that the saloon is less dangerous than democracy.

When it comes to bidding for offices democrats are right in line. It was Mr. VanAlen who made the precedent for Rock county officers to follow.

George W. Peck is considering a proposition to cut his bid on the office for governor.

THEIR EYES CLOSED IN SLEEP.

Burial of J. D. Rowley.

Janesville friends have received no further word as to the funeral of J. D. Rowley and think the burial was in Omaha. Mr. Rowley leaves a wife and son in Omaha to mourn his loss. For many years Mr. Rowley has been a citizen of Omaha, and a deacon in the First Methodist church. He is perhaps especially remembered there as the organizer of the Omaha Underwriters union, and the first compact manager in the second compact ever organized in the United States. This position he filled for a number of years. Mr. Rowley was also considered an expert in estimating rates on buildings.

Funeral of Mrs. C. H. Norton.

The remains of Mrs. Charles H. Norton arrived from Omaha at 12:20 this afternoon via Chicago, the funeral party having a special car. A number of Janesville friends were in waiting at the depot and accompanied the party to Oak Hill, where brief burial services were conducted by Rev. A. H. Barrington. The pall bearers were W. E. Evenson, W. H. Greenman, R. W. King, A. E. Rich, A. P. Davies and William Norton.

Opera House. A Double Headed Att action

The novelty of two companies playing the same night at the opera house is certainly a clever one. A great many people no doubt wonder how this can be done, but Messrs. Fisher & Scott have got it down fine, and the two shows run smoothly every night. The doors open at 7 o'clock and the first performance commences at 7:45 sharp. There is only five minutes intermission between each act, and the second performance ends about 11:45. On account of there being two separate casts the second company is all ready to play just as soon as the first one has finished. In this way no time is lost, and there will be no long waits between the acts, which so often occur much to the detriment of the performance. Those who are employed late in the evening and who have been unable heretofore to attend the theatre, can now, by securing their seats in advance go as late as 9:45 and will be able to enjoy one entire performance.

The Cost in Lives.

According to M. Eiffel, the cost in lives of any great engineering work can be estimated at least as accurately as the cost in money. "It has been ascertained," he says, "by statistical observation that in engineering enterprises one man is killed for every 1,000,000 francs spent on the work. If you have to build a bridge at a cost of 100,000,000 francs, you know that you will kill 100 workmen." This statement, while rather an ingenious one, is not, it is stated, borne out by facts. Take the Eiffel tower, for example. Six and a half millions worth cost only four lives. The Forth bridge, on the other hand, a contemporary points out, cost 45,000,000 francs, while the lives of fifty men were sacrificed in connection with its construction.

STATE PRESBYTERIAN SYNOD
CONVENES IN JANESVILLE.

Session Will Open Tuesday, October 9
and Hold Three Days--Local Com-
mittees are Now Making Arrange-
ments For Their Accommodation--
News of the Day in Tywn.

Two hundred Presbyterian ministers
gather in Janesville October 9. when
the synod of Wisconsin will meet here.
The synod is the supreme body of the
state and includes five presbyteries.
It will dispose of much important busi-
ness. The session will open Tues-
day and close Thursday evening. A
local committee, with Dr. Thor Judd
as chairman and consisting of William
Blair, S. B. Heddles, Mrs. Edward
Ruger, Miss Louise Hanson and Mrs.
William Blair are now at work per-
fecting the arrangements. As many
ministers as possible will be
quartered at private houses and
this is one of the ideas that
the committee is working on. An-
other is to serve three days luncheon
for the visitors. Everything will be
done to make their stay comfortable
and profitable, and the arrangements
could have been put in no better
hands.

With \$600 assets and \$800 liabilities,
Rehfeld & Williams, painters and
paper hangers, made an assignment
to C. H. Kueck. Slow collections are
responsible. About one-third of the
creditors are Janesville merchants.
The Lowell Hardware Company is the
heaviest, their claims being \$175.
Charles Baumbach & Co., wholesale
druggists and dealers in paints, oils
and glass, Milwaukee, have a claim of
some \$250.

We regret that there was not a
third premium of a bottle of soothing
syrup offered, that the celebrated
piano exhibit might have captured it,
which would soothe the jealous feel-
ing that has arisen because our Match-
less Shaw took the first premium at
the fair. S. C. Burnham & Co.

When we are closing out our stock
with the intention of quitting business,
we pay no attention to profit and care
but little for cost. Come and see us
make an offer and the goods are yours.

EASY it is to call a piano the match-
less piano. But, it is not such an
easy matter to match it when the
piano in question is the Shaw. No
doubt, our "celebrated" competitor
has found that out. S. C. Burnham
& Co.

The Woman's Foreign Missionary
Society of the First M. E. church will

dard, high grade pianos. In this they

tunity while it lasts. Cut glass, silver-

GEN. RUGER RAISED TO MILES' PLACE

HE WILL TAKE COMMAND IN
CHICAGO.

Promotion May Come Before Novem-
ber 8 But the Process of Law
Makes It Certain By That Time--
Colonel Randall Transferred From
Wyoming to Idaho.

General Thomas H. Ruger will suc-
ceed General Nelson A. Miles, at Chi-
cago, and with the change goes his
promotion from brigadier to major
general. The change is made possible
by the fact that General Howard, of
Governor's Island will on November 8,
be retired by the operation of law,
having reached the age limit. Upon
his retirement General Miles, who is
now in command at Chicago, will be
assigned to the command of Governor's
Island, and this will leave a vacancy
at Chicago to be filled by appointment.

MAJOR GENERAL T. H. RUGER.

of President Cleveland from the brig-
adier generals. General Ruger, now
in command of the department of Cal-
ifornia, with headquarters at San
Francisco, is the ranking brigadier
general, and he will be promoted to
major general and assigned to succeed
General Miles.

The assignment of General Miles to
Governor's Island may be made before
the retirement of General Howard,
but it is not likely that it will be
made until after November 8. The
same order may contain the assign-
ment of General Miles and the ap-
pointment and assignment of General
Ruger to the Chicago post.

General Ruger is a brother of Cap-
tain Edward Ruger and Colonel Wil-
liam Ruger of this city, and his
friends here will be glad to hear of
his promotion. The salary is \$7,500
per annum.

General Ruger has been in the mili-
tary service almost since boyhood. He
graduated at West Point, served in
the engineer corps, resigned and re-
turned home to Janesville and prac-
ticed law, being a member of the law
firm of Eldredge, Pease & Ruger.

At the breaking out of the war he
was appointed by Governor
Randall to organize the state
troops, then appointed lieutenant col-
onel of the Third Infantry, after-
wards colonel. President Lincoln
made him brigadier general and then
major general of volunteers. At the
close of the war he was made colonel
of a regular infantry regiment, and
was detailed by President Grant as
superintendent of West Point military
academy for five years. He command-
ed in the Carolinas and in Louisiana
and on the frontier.

With the change Lieutenant Colonel
George M. Randall is shifted from
Fort McKinney, which is abandoned,
to Fort D. A. Russell, Idaho.

MUCH STONE USED IN ONE BRIDGE

Fifty Carloads Come at Once--Railway
Business Picking Up.

There won't be a handsomer or more
substantial bridge on the Northwest-
ern system than the one that the
company are now putting in at the
"Three Mile Creek" on the Evansville
cut off. They have been at work at
it for a long time, and it requires so
much stone that it can hardly be got-
ten here fast enough. As high as fifty
carloads have been in Janesville at
once, and all to be used in the one
job. The lack of material has been
delaying the work for some days, but
a new supply came to-day. The bridge
was built on piles, but the stone work
will supplant the wooden structure.

Business is picking up on the rail-
roads and the Janesville yards are a
little more lively than they were.
Freight trains from the north are de-
layed occasionally by the rush of busi-
ness on the Madison division. Trains
are run in "droves" of from six to a
dozen and often two bunches will
meet each other and then they have a
great time getting past each other.
The shipments are largely stock from
Montana. This freight has been go-
ing over the Chicago Burlington &
Northern road, but it is said that the
Northwestern has made a bid for it
that was accepted.

Railroad men all have deep sympa-
thy to express for Mrs. McMahon,
widow of the fireman who was killed
in the wreck of the vestibule at Bar-
rington. Mrs. McMahon has returned
to Janesville and is living in her
former home on Center street.
Charles Corson, the St. Paul brake-
man, has been promoted to conductor
and will go to Platteville to take
charge of his train.

GREEN CASE COMES UP WEDNESDAY

Alleged Attempt To Kill Mrs. Marsden
To Be Aired.

A jury to try Charles Green on the
charge of attempting to kill Mrs.
Harry Marsden, will be drawn before
Judge Phelps in the municipal court
Thursday morning at 9 o'clock. J. L.
Mahoney now has charge of the de-
fense and District Attorney Wheeler
will prosecute the case.

P. W. Murphy, of Beloit, who is
charged with committing an assault
on Fredonia Kingsbury, of Beloit,
appeared in court yesterday afternoon,
and the case was set for October 8, at
10 o'clock.

SIX MONTHS FOR A BRUTAL CRIME

Dennis Butler Sentenced For Connection
with the Ferrin Case.

Dennis Butler, of Beloit, got six
months in jail for being implicated in
the assault on the Ferrin girl from
Shopiere. When brought before Jus-
tice P. N. Pierce by Marshal Appleby,
he pleaded guilty to the charge and
was given six months' imprisonment,
which is considered, under the circum-
stances, a very light sentence. It is
claimed that Butler was the one who
first enticed the girl into the woods
where she was drugged.

BATTLE FOR \$54000 AT THE POLLS TODAY

LICENSE ELECTION ENDS AT
7 P. M. TONIGHT.

Eighteen Carriages Have Been at
Work Since Early Morning By the
Advocates of the \$200 Fee--How
the Vote Stood at 3:30 O'Clock
this Afternoon.

All the influence that sixty saloons
command was exerted today. The
contest involved the handsome sum of
\$54,000, and the Personal Liberty
league was of the opinion that this
sum should remain in the coffers of
its members, instead of going into the
city treasury. When the polls opened
this morning, eighteen carriages were
in service, two at each precinct, and
low license votes rolled in.

The friends of high license had no
organization, it being a free-for-all so
far as they were concerned, and con-
sequently the chances are largely in
favor of low license.

The polls will not close until 7
o'clock this evening. At 3:30 o'clock
the vote polled in the several precincts
was as follows:

FIRST WARD.			
First precinct.....	147	Second precinct....	176
SECOND WARD.			
First precinct.....	122	Second precinct....	185
THIRD WARD.			
First precinct.....	207	Second precinct....	162
FOURTH WARD.			
First precinct.....	214	Second precinct....	339
FIFTH WARD.			

This makes a total of 1682. In the
last city election the vote at 3:30 was
2039.

LOWELL AND THE GAZETTE PRAISED

"Garland" Company Pay Both High Com-
pliments in Their Advertising.

Equal parts of "hustle" and Gazette
advertising make E. W. Lowell's name
a power in the hardware world. A
high compliment is paid Mr. Lowell
and his ability as an advertiser by the
Michigan Stove Company, manufactur-
ers of the "Garland" stove and range.
Two of the most widely circulated
and influential hardware journals in
the country "The Metal Worker" and
"The Stove and Hardware Reporter"
are used as the mediums. These
papers reproduce one of the advertise-
ments that Mr. Lowell had printed in
the Gazette during the recent "war"
between rival steel range dealers. The
reproduction is a fac simile of the page
of the paper itself and incidentally
another full page set in bold face type
says in reference to the fac simile:

"This half page advertisement, in-
serted by the Lowell Hardware Com-
pany of Janesville, Wisconsin, in The
Janesville Gazette of August 1, pro-
duced results which warranted them
in ordering from us a full carload of
'Columbian Garland' steel ranges.
This goes to show the results of ju-
dicious advertising, and we trust our
customers will profit by using the col-
umns of their local paper liberally."

This declaration was read by all the
principal hardware men of the
country. Two pages were used in each
journal to display The Gazette's "ad."
and the notice that went with it. The
Garland people were immensely
pleased with the result of the Janes-
ville campaign and they compliment
their hustling local representative,
Mr. Lowell, in the highest possible
terms.

PLAINEST PEOPLE
HAVE LUXURIES

"HOLY COMPULSION" AS A SER-
MON TEXT.

Dr. Talmage Relates Some of His Personal Experiences—Lights and Shadows of a Christian's Life—Luxuries of the Plain People of To-Day.

BROOKLYN, Sept. 16.—Rev. Dr. Talmage, who is still absent on his round-the-world tour, has selected for his sermon through the press for to-day: "Holy Compulsion," the text being Luke 14: 23: "And compel them to come in."

The plainest people in our day have luxuries which the kings and queens of olden times never imagined. I walked up and down the stairs of Holyrood palace—a palace that was considered one of the wonders of the world—and I said: "Can it be possible that this is all there was of this reputed wonderful place?" And this is the case in many other instances. There are fruits in Westchester county and on Long Island farms far better than the pomegranates and apricots of Bible times. Through all the ages there have been scenes of festivity, and the wealthy man of my text plans a great entertainment, and invites his friends. If one builds a beautiful home, he wants his acquaintances to come and enjoy it. If one buys an exquisite picture, he wants his friends to come and appreciate it; and it was a laudable thing when the wealthy man of my text, happy himself, wanted to make other people happy. And so the invitations went out; but something went very much wrong. You can imagine the embarrassment of any one who has provided a grand feast when he finds out that the guests invited do not intend to come. There is nothing that so provokes the master of the feast as that.

Well, these people invited to this great banquet of the text made most frivolous excuses. The fact was, I suppose, that some of them were offended that this man had succeeded so much better in the world than they had. There are people in all occupations and professions who consider it a wrong to them that anybody else is advanced. I suppose these people invited to the feast said among themselves, "We are not going to administer to that man's vanity, he is proud enough now; we won't go; beside that, we could all give parties if we made our money the way that man makes his."

So when the messengers went out with the invitations there was a unanimous refusal. One man said, "Oh, I have bought a farm, and I must go and look at it!" He was a land speculator, and had no business to buy land until he knew about it. A frivolous excuse. Another man said, "I have bought five yoke of oxen." The probability is he was a speculator in live stock. He ought to have known about the oxen before he bought them. Beside that, if he had been very anxious to get to the feast, he could have hooked them up and driven them on the road there. Another frivolous excuse. Another man said, "Oh, I have married a wife, and I can't come;" when he had said to his wife, "I have an invitation to a splendid dinner; it is highly complimentary to me; I should very much like to go; will you go along with me?" she would have said, "To be sure I will go." Another frivolous excuse. The fact was that they did not want to go.

"Now," said the great man of the feast, "I will not be defeated in this matter; I have with an honest purpose provided a banquet, and there are scores of people who would like to come if they were only invited. Here, my man, here, you go out, and when you find a blind man, give him your arm and fetch him in; and when you find a lame man, give him a crutch and fetch him in; and when you find a poor man, tell him that there is a plate for him in my mansion; and when you find some one who is so ragged and wretched that he has never been invited anywhere, then, by the kindest tenderness and the most loving invitation any one ever had, compel him to come in."

Oh, my friends, it requires no acuteness on my part, or on your part, to see in all this affair that religion is a banquet. The table was set in Palestine a good many years ago, and the disciples gathered around it, and they thought they would have a good time all by themselves, but while they sat by the table the leaves began to grow and spread, and one leaf went to the east and another leaf went to the west, until the whole earth was covered up with them, and the clusters from the heavenly vineyard were piled up on the board, and the trumpets and harps of eternity made up the orchestra, and as this wine of God is pressed to the lips of a sinning, bleeding, suffering, dying, groaning world, a voice breaks from the heavens, saying, "Drink, O friends; yea, drink, O beloved!" O blessed Lord Jesus, the best friend I ever had, the best friend any man ever had, was there ever such a table? Was there ever such a banquet?

From the cross uplifted high, Where the Saviour designs to die, What melodious sounds I hear Bursting on the ravished ear! Heaven's redeeming work is done, Come, and welcome; sinner, come. Religion is a joyous thing, I do not want to hear anybody talk about religion as though it were a funeral. I do not want anybody to whine in the prayer meeting about the kingdom of God. I do not want any man to roll up his eyes, giving in that way evidence of his sanctity. The men and women of God whom I happen to know, for the most part, find religion a great joy. It is exhilaration to the body. It is invigoration to the mind. It is rapture to the soul. It is balm for all wounds. It is light for all

darkness. It is a harbor from all storms, and though God knows that some of them have trouble enough now, they rejoice because they are on the way to the congratulations eternal.

I stopped one nightfall, years ago, at Freyburg, Switzerland, to hear the organ of world-wide celebrity in that place. I went into the cathedral at nightfall. All the accessories were favorable. There was only one light in all the cathedral, and that a faint taper on the altar. I looked up into the venerable arches and saw the shadows of centuries, and when the organ awoke, the cathedral awoke, and all the arches seemed to lift and quiver as the music came under them. That instrument did not seem to be made out of wood and metal, but out of human hearts, so wonderfully did it pulsate with every motion; now laughing like a child, now sobbing like a tempest. At one moment the music would die away until you could hear the cricket chirp outside the wall, and then it would roll up until it seemed as if the surge of the sea and the crash of an avalanche had struck the organ pipes at the same moment. At one time that night it seemed as if a squadron of spirits weeping up from earth had met a squadron of descending angels whose glory beat back the woe. Standing there and looking at the dim taper on the altar of the cathedral, I said: "How much like many a Christian's life! Shadows hover, and sometimes his hope is dim, and faint, and flickering, like a taper on the altar. But at what time God wills, the heavens break forth with music upon his soul, and the air becomes resonant as the angels of God beat it with their shining sceptres."

Oh, the Lord God has many fair and beautiful daughters; but the fairest of them all is she whose ways are pleasantness and whose paths are peace! Now, my brothers and sisters—for I have a right to call you also—I know some people look back on their ancestral line, and they see they are descended from the Puritans or Huguenots, and they rejoice in that; but I look back on my ancestral line, and I see therein such a mingling and mixture of the blood of all nationalities that I feel akin to all the world, and by the blood of the Son of God, who died for all people, I address you in the bonds of universal brotherhood. I come out as only a servant, bringing an invitation to a party, and I put it into your hand, saying, "Come, for all things are now ready," and I urge it upon you and continue to urge it, and, before I get through, I hope, by the blessing of God, to compel you to come in.

We must take care how we give the invitation. My Christian friends, I think some times we have just gone opposite to Christ's command, and we have compelled people to stay out. Some times our elaborated instructions have been the hindrance. We graduate from our theological seminaries on stilts, and it takes five or six years before we can come down and stand right beside the great masses of the people, learning their joys, sorrows, victories, defeats. We got our heads so brimful of theological wisdom that we have to stand very straight lest they spill over. Now, what do the great masses of the people care about the technicalities of religion? What do they care about the hypostatic union or the difference between sub-lapsarian and supra-lapsarian? What do they care for your profound explanations, clear as a London fog? When a man is drowning he does not want you to stand by the dock and describe the nature of the water into which he has fallen, and tell him there are two parts hydrogen gas and one of oxygen gas, within common density of thirty-nine Fahrenheit, turning to steam under a common atmospheric pressure of two hundred and twelve. He does not want a chemical lecture on water; he wants a rope.

Oh my friends, the curse of God on the church, it seems to me, in this day, is metaphysics. We speak in an unknown tongue in our Sabbath schools, and in our religious assemblages, and in our pulpits, and how can people be saved unless they understand us? We put on our official gowns, and we think the two silk balloons flapping at the elbows of a preacher give him great sanctity. The river of God's truth flows down before us pure and clear as crystal; but we take our theological stick and stir it up, and stir it up, until we can not see the bottom. Oh, for the simplicity of Christ in all our instructions—the simplicity he practiced when standing among the people, he took a lily, and said, "There is a lesson of the way I will clothe you;" and, pointing to a raven, said, "There is a lesson of the way I will feed you; consider the lilies—behold the fowls."

I think often in our religious instructions we compel people to stay out by our church architecture. People come in and they find things angular, and cold, and stiff, and they go away never again to come; when the church ought to be a great home circle, everybody having a hymn book, giving half of it to the one next to him, every one who has a hand to shake hands, shaking hands—the church architecture and the church surroundings saying to the people, "Come in and be at home." Instead of that, I think all these surroundings often compel the people to stay out. Now, let us all repent of our sins and begin on the other track, and by our heartiness, affection, and warmth of manner, and imploration of the Spirit of God, compel the people to come in. How shall we lead sinners to accept the Lord's invitation? I think we must certainly begin by a holy life. We must be better men, better women, before we can compel the people to come into the kingdom of Jesus Christ. There are fine essays being written in this day about science and religion. I tell

you the best argument in behalf of our holy Christianity: it is a good man, a good woman, a life all consecrated to Christ. No infidel can answer it. Oh, let us by a holy example compel the people to come in.

I read of a minister of the gospel who was very fond of climbing among the Swiss mountains. One day he was climbing among very dangerous places, and thought himself all alone, when he heard a voice beneath him say, "Father, look out for the safe path, I am following," and he looked back and he saw that he was climbing not only for himself, but climbing for his boy. O, let us be sure and take the safe path! Our children are following, our partners in business are following, our neighbors are following, a great multitude stepping right on in our steps. O, be sure and take the right path! Exhibit a Christian example, and so by your godly walk compel the people to come in.

I think there is also work in the way of kindly admonition. I do not believe there is a person in this house who, if approached in a kindly and brotherly manner, would refuse to listen. If you are rebuffed, it is because you lack in tact and common-sense. But oh, how much effective work there is in the way of kindly admonition! There are thousands of men all round about you who have never had one personal invitation to the cross. Give that one invitation, and you would be surprised at the alacrity with which they would accept it.

I tell you to-day, my friends, of a great salvation. Do you understand what it is to have a Saviour? He took your place. He bore your sins. He wept your sorrows. He is here now to save your soul. A soldier, worn out in his country's service, took to the violin as a mode of earning his living. He was found in the streets of Vienna, playing his violin, but after a while his hand became feeble and tremulous, and he could no more make music. One day, while he sat there weeping, a man passed along and said, "My friend, you are too old and too feeble; give me your violin;" and he took the man's violin, and began to discourse most exquisite music, and the people gathered around in larger and larger multitudes, and the aged man held his hat, and the coin poured in and poured in until the hat was full. "Now," said the man who played the violin, "put that coin in your pocket." The coin was put in the old man's pocket. Then he held his hat again, and the violinist played more sweetly than ever, and played until some of the people wept and some shouted. And again the hat was filled with coin. Then the violinist dropped the instrument and passed off, and the whisper went, "Who is it? who is it?" and some one just entering the crowd said, "Why, that is Bucher, the great violinist, known all through the realm; yes, that is the great violinist." The fact was, he had just taken that man's place and assumed his poverty, and borne his burden, and played his music, and earned his livelihood, and made sacrifice for the poor old man. So the Lord Jesus Christ comes down, and he finds us in our spiritual penury, and across the strings of his own broken heart he strikes a strain of infinite music, which wins the attention of earth and heaven. He takes our poverty. He plays our music. He weeps our sorrow. He dies our death. A sacrifice for you. A sacrifice for me.

Oh, will you accept this sacrifice now? I do not single out this and that man, and this and that woman. But I say all may come. The sacrifice is so great, all may be saved. Does it not seem to you as if heaven was very near? I can feel its breath on my cheek. God is near, Christ is near. The Holy Spirit is near. Ministering angels are near. Your glorified kindred in heaven near. Your glorified mother near. Your departed children near. Your redemption is near.

A Disputed Case. Many persons dispute the question as to whether or not baldness caused either by disease or neglect can be cured. In deciding the question allow us to say the matter can be cured, while others can not. Only a specialist of years of experience can tell this. Is a source of much suffering. The system should be thoroughly cleansed of all impurities, and the blood kept in a healthy condition. S. S. S. removes Uric acid, purifies the blood, and builds up the general health. It is without an equal. Ira F. Also for the necessary work of grading, paving, and curbing that portion of East Milwaukee street between the east line of Division street and the east line of Division street. All of the above mentioned work to be completed by November 1, 1894. Each bid to be accompanied by a certified check or a cash bond for the amount of \$100. That in the event of a bidder being awarded the contract for doing said work, he will enter into contract with the city for same, the successful bidder to employ only Janesville labor. The council reserves the right to reject any and all bids. GEO. H. BATES, City Clerk.

SPECIFICATIONS.

Specifications for grading, curbing and paving that portion of East Milwaukee street in the city of Janesville, between the east line of Division street and the east line of Division street, except so much of the street as is occupied by and lies between the tracks of the Janesville Street Railway Company including a strip on either side of said track one foot in width next adjoining the rails of said track.

GRADING. Said street shall be graded so as to bring its surface to a uniform depth of eleven inches below the established grade of the same; and in doing said grading the earth is to be scraped off to the desired depth so as not to loosen the soil below. Also in all places where the street with re trenching has been done for water, gas, sewer pipes or connections of any kind, such places shall be made firm and secure against unequal settling. If any filling is done, the filling said street to this grade, it must be done with sand or gravel, free from all perishable materials. After the surface has been shaped to conform to the pavement above, it shall be thoroughly rolled or tamped to make it secure against settling, which having been done a ballast of four inches of clean sand or fine gravel shall be spread in such a manner that the sub-grade of said street shall be uniformly seven (7) inches below the grade thereof, said ballast to be well rolled or tamped so as to make it firm. The cross section of each street shall be from the gutter to the street car track shaped so as to form a segment of a circle whose radius shall be three hundred (300) ft. at the center of the street to correspond with the grade of said street; the gutters to be placed may direct, the same to be twenty (20) ft. of a low lower at a point eighteen (18) inches out from the curb than at the curb.

The grading of said street and the ballasting thereof shall be done under the direct supervision of the city engineer, and the same shall be done to the satisfaction of a special committee appointed by the mayor of said city. All stone and brick work shall be laid on a foundation of concrete, and all work shall be removed in grading said street and also all rubble and gravel which is excavated in doing said grading and is not used in the construction of the street shall be deposited in such place or places, not more than two (2) blocks away from the above designated street, as the city engineer may direct. Third wards shall direct, without extra charge. The work shall be carried on in such a manner as to not impede and obstruct travel on said street as little as possible and yet be consistent with the speedy and economical completion of said work.

CURBING. Curbstones shall be placed in such places as the special committee shall direct and to be of good quality, free from seams, cracks or other defects, and shall be at least four (4) inches wide and four (4) inches thick. The tops of said curbstones to be dressed so as to be true line and their faces to be dressed to a depth of ten (10) inches from the top; the ends to be dressed to a depth of fifteen (15) inches so as to form close joints with each other. The curbstones shall be firmly set on their edges so that the alignment and grade given by the city engineer, and are given by the curbstones, shall be maintained and the curbstones shall be well tamped and to be thoroughly packed with sand or fine gravel at least four (4) inches in width at their backs.

STRONGERS. The surface of said street, having been brought to conform to the sub grade of the same, shall be covered with a ballast of at least four (4) inches of good clean sand or fine gravel, well and thoroughly tamped, there shall be laid at right angles across said street and at intervals of four feet apart, durable white pine stringers, one (1) inch thick, eight (8) feet long and not less than sixteen (16) feet in length. Said stringers shall be free from sap, wind shake or other defects, they shall be well and firmly imbedded in the sand or the gravel forming the ballast so that the top surface of said stringer shall accurately conform to the sub-grade of said street. When said stringers are thus laid, the sand or fine gravel between them shall be carefully dressed to a straight line, so as to insure that the top surface of the ballast lies between the stringers shall present a smooth, compact and uniform surface, conforming to the sub-grade of said street, preparatory to laying the flooring.

FLOORING. Between the stringers and the ballasting there shall be a flooring of good, sound green hemlock boards, free from rot, sap, wind shakes or other defects, one (1) inch thick and from eight (8) to twelve (12) wide and sixteen (16) feet long. They are to be laid lengthwise of the street, in close contact, their ends being sawed off square so as to form close joints.

PAVING. Between the curbing and on either side of said street and the street car track in the center and resting upon the flooring prepared as above specified, shall be a road bed of said street. Said blocks shall have a uniform length of six inches, sawed from good, sound, live cedar posts, of from four to ten inches in diameter, free from bark, rot or other defects. They are to be placed on the ends upon the flooring in close contact with each other, and to be kept well driven up so as to form close joints and a firm road bed. During the progress of laying the paving blocks of different diameters must be so arranged and placed with reference to each other, as to leave the smallest practical spaces between the blocks. Spaces approaching a square form must be avoided, and no sp of blocks of less than three inches in diameter will be allowed. All cracks between the blocks are to be filled with screened gravel of a quality, size and screening, satisfactory to the special committee appointed by the mayor of said city. The same to be thoroughly tamped with proper tools until solid, and refilled and retamped, until the spaces have been completely filled with firm and solidly tamped gravel. The whole work to be done under the supervision and to the satisfaction of the above mentioned committee. After the filling shall have been completed the top surface of the paving shall be swept off with a coarse broom, and left uncovered until it has been inspected and accepted by the special committee above mentioned. After such inspection and acceptance, the paving shall be covered with fine screened gravel to a depth of one inch.

CROSS-WALKS. There shall be four cross-walks at the intersection of East Milwaukee and Bluff Sts., and 4 at the intersection of East Milwaukee and Division Sts., unless otherwise directed by the city engineer. Said walks shall be made by raising the pavement in the usual manner, three (3) inches wide in the center of the walk, the same to be twelve feet wide and so constructed that the crown will be even and of such grade as directed by the city engineer.

The street upon its completion shall be left free from rubbish and impediments of all kinds. That portion of said street adjacent to and adjoining the blocks to be covered with gravel, shall be in as good condition as they were prior to the commencement of the work herein specified. All connections of the pavement with sewerage, gas or water openings shall be substantially and properly made, and the street upon completion shall have a uniform smooth surface, conforming to the final grade and crown of said street, and it shall be left by the contractor in perfect order and condition. It is expressly understood that the contractor shall not be entitled to any allowance on account of injury to said street, by reason of rains or otherwise, during the progress of the work herein specified; or where the same has been completed and accepted as herein stated.

It is further expressly understood that the price per square yard named in the contract for paving said street, shall cover the cost of grading, furnishing, preparing and laying the stringers, flooring and paving blocks as herein specified and contemplated, and that the price for a live foot, named in the contract for grading, setting and preparing the sub-grade, and new curbing as herein specified. No extra allowance whatever will be made. These specifications are hereby declared to be a part of the contract for grading and paving said street. O. G. BLEEDORN, City Engineer.

BRIEF BITS OF HUMOR.

A Happy Death.

A negro living on Onion creek came to Austin recently, and the following conversation occurred between him and a city friend:

"How is Pete Jackson?"

"He is done dead."

"Yer don't tole me so. How did hit come about?"

"He died wid digestion ob de lungs, but surrounded wid de bes' wishes ob de hull neighborhood."—Alex. Sweet, in Texas Siftings.

At the Boarding House.

"Pass me the Sandow," remarked the boarder on the far side of the table to the boarder on the near side.

The landlady glanced up sharply, and the boarder on the near side never let on. Then the landlady's attention was called to something else, and the boarder on the near side passed the butter to the boarder on the far side.—Detroit Free Press.

The Quiet Inference.

"The coffee has a very unusual taste this morning," said the boarder who likes to be disagreeable.

"I have no hesitation in saying that it is very good coffee," said Mrs. Hashem, bristling.

"Yes," replied the disagreeable boarder. "It is exceedingly good coffee."—Washington Star.

The Way of It.

Her brow was like the snowdrift,
Her throat was like the swan—
When she'd bought complexion powders
And strewed them thickly on.

—Detroit Tribune.

WOULD MEET AGAIN.

She (sadly, to her fiancé)—And now you must go back to the dreadful city and leave me here alone for the rest of the season?

He (tenderly)—Yes, dear; but we shall meet here again next summer, you know.—Brooklyn Life.

She Knew What She Was Doing.

Louise—You are surely not going to marry Mr. Graball?

Maud—I am.

L.—Why, he is a regular miser.

M.—That's just the reason. I don't want a man who spends all the money himself. I will attend to that part of the business.—N. Y. Press.

Makes a Big Difference.

Mr. Timm—How would a girl feel if she received a proposal by letter?

Friend—If she didn't care for you, she'd feel insulted.

Um—well—er—suppose she did care for me?

"She'd say 'yes' by telegraph."—N. Y. Weekly.

Not While He Knew It.

Doctor—You say your husband has been in this delirious state for the last hour? Why did you not send for me sooner?

Patient's Wife—Sure, sor, as long as he wor in his right mind he said he wouldn't hav' 'wont' of thim docters in the house!—Puck.

Private and Public Business.

Boy—Why do you hire that man by the job?

Father (a congressman)—Because if I paid him by the day he'd dawdle along all summer.

"Does the government pay you by the job?"

"N—o; by the day."—Good News.

Puzzled.

Mrs. Fornalogue—Well, how are you getting along with your housekeeping?

Mrs. Nuwed—Oh, famously! But, I was going to ask you. Is a sugar loaf the same thing as a sweetbread?—N. Y. World.

After Tea.

A bright little girl who had successfully spelled the word "that," was asked by her teacher what would remain after the "t" had been taken away.

"The dirty cups and saucers," was the prompt reply.—Texas Siftings.

She Was Not Ambitious.

Mrs. Newrich—I want Ethel to be very highly educated.

Ethel (imploringly)—Oh, mamma, I don't want to be highly educated. I want to be just like you.—Brooklyn Life.

The Point of View.

Van Croke—But, my dear fellow, you can't afford to marry a girl like Ruth Richling.

Von Broke—On the contrary, old man, I can't afford to marry any other girl.—Brooklyn Life.

Just Like Most Women.

"Miss Streeter is learning to ride a bicycle."

"How is she succeeding?"

"Oh, she doesn't get on very well."—Life.

Always So.

Perkins—Say, Dexter, your stories remind me of my bank account.

Dexter—How's that?

"Always overdrawn."—Arkansas Traveler.

Voice of a Statesman.

"Those who don't like my course in the matter of sugar," observed the eminent senator, placidly stirring his gold top, "may hear it."—

OUR MINISTER TO RUSSIA.

Clifton R. Breckinridge Lately Sent to St. Petersburg.

Clifton R. Breckinridge of Arkansas has been appointed by President Cleveland minister to Russia in place of Mr. Andrew D. White, who has resigned. Mr. Breckinridge is the son of the Hon. John C. Breckinridge, once vice-president of the United States, democratic candidate for the presidency in 1860, and subsequently a general in the confederate army. Mr. Breckinridge himself was born at Lexington, Ky., Nov. 22, 1846, and is therefore in his forty-eighth year. He served in the confederate army as a private and as a midshipman in the confederate navy. Afterward he was a clerk, then a student at Washington college (now Washington and Lee university) then a planter and cotton factor in Arkansas. He has served his district

C. R. BRECKINRIDGE.

in congress for eleven years, and has been one of the leaders of the democratic side of the house for nearly the whole of that time. His party will greatly miss his counsel in the legislative branch of the government.

A Boston Man Gets a Paper.

I ran across a man last week—about the meanest man it has ever been my misfortune to see. In one of our depots is a large box bearing the sign, "Please drop to-day's papers for the sick in hospitals." Many people have not the time to drop their papers in the slot, and merely toss them on top. The mean man left his suburban train, walked up to the box, took his pick, and, calmly putting it in his pocket, walked off, in supreme indifference to the poor, suffering body whom he was depriving of perhaps his only enjoyment during the long, weary day of pain.—Boston Journal.

The Japs Are Brave.

A British officer, who apparently knows, says that it "would be as reasonable to charge brave men armed with pitchforks against brave men armed with rifles as to pit, man for man, the Chinese in their present condition against the Japanese." "Of all native and colonial troops I have seen, and I have seen most of them," says he. "I would, next to Goorkhas, prefer a regiment of Japanese. They are brave, temperate, patient, energetic, and at this moment the Chinese, whatever might be done with them, they are 200 years behind." There is a gymnasium in every Japanese barracks.

Black as Ink.

Are the prejudices which some people cherish against what is good for them. They reason, as our old friend Artemus Ward says, thus: "So and so has been taking medicine for a long time and isn't any better." They only know of individual cases. Many could be cited, to their astonishment, in which Hostetter's Stomach Bitters has brought about a complete change in the physical condition of persons suffering from general ill health. This stomachic, besides having the decided recommendation of the medical profession, is voted by the general public as the best purgative and an invigorant and restorative of health not found anywhere else. In bodily trouble caused by the liver, stomach and bowels, in instances where rheumatic tendencies are experienced, and when the kidneys are weak, it is the true resort.

Drawing Jurors.

ITEMS AND IDEAS.

Eusebius says that dancing was invented by Curetes, B. C. 1534, to celebrate a victory.

The Suez canal is only 88 miles long, but it reduced the distance from England to India by sea nearly 4,000 miles.

In France the population averages about 187 to the square mile. In this country the average is 21 to the square mile.

A WRECK.

of the physical constitution often comes from unnatural, pernicious habits, contracted through ignorance or from excesses. Such habits result in loss of manly power, nervous exhaustion, nervous debility, impaired memory, low spirits, irritable temper, and a thousand and one derangements of mind and body. Epilepsy, paralysis, softening of the brain, and even death, insanity sometimes result from such reckless self-abuse.

To reach, reclaim and restore such unfortunate to health and happiness, is the aim of the publishers of a book written in plain but chaste language, on the nature, symptoms and curability, by home treatment, of such diseases. This book will be sent sealed, in plain envelope, on receipt of ten cents in stamps to pay postage.
